

January 28, 2025

Dear Sara Aly,

It is with great pleasure that we officially extend you an offer of acceptance as an ARCS Fellow.

We look forward to your participation this upcoming year as part of the ARCS 2025 cohort. ARCS vision is to be a global leader in education, research and commercialization regarding increasingly autonomous (IA) systems. With your time and dedication during your upcoming fellowship, we seek to elevate and advance your skills, knowledge, research, and career opportunities.

You will be under the guidance of Professor Ashley Geng.

We pride ourselves on Convergence Research, so while your activities will mainly focus on the project above, we highly encourage you to engage with other ARCS fellows, associates, and faculty, to collaborate on other endeavors, events, joint publications, research that may or may not relate to your project. You will be provided with a set of documents about ARCS Fellowship agreements, policies, and procedures to review and sign during the ARCS Orientation.

If you have questions about the project, please contact Professor Ashley Geng.

Congratulations!

Sincerely, Dr. Nhut T. Ho

ARCS Director
